THIRTY-EIGHTH ANNUAL REPORT

OF THE

Industrial School Association

OF BROOKLYN, E. D.

Established March, 1854. "Home" Established November, 1869.

1892.

FORM OF BEQUEST.

I give and bequeath to the INDUSTRIAL SCHOOL ASSOCIATION OF
BROOKLYN, E. D.,
Dollars, to be applied to the uses and purposes of said Association:

OR,

I give and devise to the INDUSTRIAL SCHOOL ASSOCIATION OF
BROOKLYN, E. D.,
Dollars, to be invested in good security on Bond and Mortgage,
or in Stocks of this State or the United States, and the income
arising therefrom, to be applied to the uses and purposes of said
Association.

THIRTY-EIGHTH ANNUAL REPORT

OF THE

INDUSTRIAL SCHOOL

ASSOCIATION,

OF

BROOKLYN, E. D.

Established March, 1854.

“HOME” Established November, 1869.

1892.

OBJECTS AND AIMS.

"The Industrial School Association of Brooklyn, Eastern District," was incorporated under the general act of 1848 for the incorporation of benevolent associations, by filing in the office of the Clerk of Kings County, April 12, 1860, a certificate of incorporation signed by John A. Brady, George W. Edwards, James Hall, Isaac M. Holly, John Broach and Richard B. Hunt; who, together with Robert Duncan and George Ricard, constituted the Board of Trustees for the first year.

The objects are stated in the certificate as follows:

"To cause the children of the school to be instructed in the Elementary branches of English Education, to see that they are taught habits of neatness and order, to be instructed in domestic duties, to provide food and clothing for the children, and to procure for them places of employment when they have arrived at a suitable age."

In 1870 an Act was passed by the Legislature amending the charter and conferring additional powers on the Association. This Act may be found on the last pages of this Report.

SECRETARY'S REPORT.

To the Association:

The year now closing has been prospered to our institution in the faithful service of its officers and managers and the generous gifts of friends. In the comforts and healthfulness of the Home, and in the educational results attained in our schools, we have reason for congratulation. Sickness and disease are rare among our children, owing largely, as we believe, to unremitting care in maintaining cleanliness and in providing wholesome food, to the opportunities afforded by our playgrounds for out-of-door exercise, and to the constant and intelligent supervision of our physicians. The girls' playground has been substantially improved. By the generosity of Mr. A. D. Baird, who caused it to be flagged, and of Messrs. Cross, Austin & Co., who furnished the lumber for a new platform, our girls can obtain needed exercise in all weathers, keeping both dry and clean. A system of competition has been introduced in our Home School, through monthly prizes offered by Miss Du Bois, which has been productive of marked results in the conduct and scholarship of the pupils. It is not infrequent for one-half of the class to attain the perfect grade. While it is incumbent on us, under our relations with the Board of Education, to follow the same general outline of study as pursued in our public schools, the grade of scholarship attained is fully equal, in proportion to the length of time for which our children remain under our charge, to that attained in any other school, public or private. While we enjoy the advantage in the Home of having the children constantly under one supervision and control, there is also a counterbalancing disadvantage of constant and frequent change, some children remaining with us but a few months, weeks, or days.

Following the example of some other schools, the School Committee have introduced in the exercises the occasional ceremony of saluting the flag, with appropriate songs and recitations. Regarding patriotism in a Republic as the duty of every individual, this seems an appropriate and a useful object lesson.

The charter of the City of Brooklyn provides that orphan asylums maintaining schools of the general character and grade of the public schools shall receive a share of the public school moneys, proportioned to the number of children taught between the ages of five and twenty-one years. The Board of Education has heretofore made this allowance to institutions like ours, limited to children lodged in the Home. This construction of the law seeming to us not in accordance with the terms of the charter, we made an application in April last to the Board of Education for an allowance of school moneys based upon the number of children actually taught, as in the public schools. Our branch schools educate, beyond the children taught and lodged in the Home, an average of over one hundred and sixty children daily. This is as really a practical service to public education as if the work was done in a public school. It has been found by the Board of Education to be impracticable to make the increased school facilities keep pace with the increasing population. It has frequently happened that children have been denied access to public school privileges, or have been limited to their partial enjoyment, on account of the lack of accommodation for those who applied. The orphan asylums have met this want to a certain extent by furnishing to the younger class of children instruction of a grade approved by and subject to the visitation of the Board of Education and its officers.

Our application was denied, the Board of Education adhering to its former construction of the provisions of the charter, limiting the allowance to children lodged in the Home. Whether this effort shall be continued, and in what way, must be a matter for consideration in the coming year.

An additional lot has been purchased by private subscription, adjoining the Gillespie Memorial, known as Branch No. 1, on Humboldt Street, for the enlarged accommodation which will soon be required, in view of the success of that branch and the Day Nursery there maintained.

We have been especially favored with large donations of clothing material and stationery suitable for use in the school, through the personal efforts of our treasurer, Mr. C. S. Young, among his business acquaintances in the City of New York. Upon his suggesting our needs to merchants with whom he was brought in contact, whole pieces of material have been piled upon the counters of our workroom, where, by the nimble fingers of our seamstress, Mrs. Field, they have been wrought into the various articles of clothing which are as necessary and useful as our daily food, gladdening the hearts and greatly relieving the labors of our managers. It will not be deemed invidious

to mention this instance of special service, both as an act of justice to the gentleman who has entered into the work with such hearty zeal, and as an instance of what others might accomplish by carrying the interests of the Home into their daily life and walk. A large part of our supplies are given in this way. For two years past our boys have used only Dunlap's hats for best wear, and it has cost us nothing ; and it is believed that with a little more thought of our responsibilities, and improvement of our opportunities, the free list might be largely increased. "And whatsoever you do give to these little ones, you do give unto Me," said the Master.

The usual able and comprehensive report of the Secretary of the Board of Managers sets forth the details of our work.

Respectfully submitted,

GEORGE H. FISHER,

Secretary.

REPORT OF THE BOARD OF MANAGERS.

Again it becomes our duty to render to the benefactors of the Industrial School and to the public a faithfully condensed report of our stewardship. So, to those who may be interested, we would say that the appointed work has been carried on efficiently, and the results for which we have given so much time and labor, have in a great measure been attained. It is now nearly forty years since the association began this important work of rescuing and befriending destitute children, and never in that time has the interest or activity abated, and by divine blessing the efforts put forth have been crowned with success and the labor has not been in vain. True, there may have been some discouragements, but these have been counterbalanced by many pleasant experiences.

The kindly remembrances which have found their way to us during the year, expressive of the sympathy and interest of our many friends, as well as the confidence reposed in us, have been helpful and inspiring, acting upon the managers as an incentive to make the most of the means and opportunities which have been given them.

We are grateful in being able to say that of the benevolent and judicious women who form our Board, none have been removed by death. May this year, spent together in loving service, broaden our charity and make us more kind in our judgments of each other.

The Home family still continues to be a numerous one, as the Superintendent's report will show:

Children living in the Home, Oct. 1st, 1891.....	191
“ entered through the year.....	183
“ cared for during the year 1891-1892.....	374
“ discharged “ “ “	172
“ returned to friends during the year 1891-1892...	142
“ on trial for adoption or indenture.....	23
“ sent to other institutions.....	2
“ sent West (Children's Aid Society).....	3
“ died.....	2
“ living in the Home, Oct. 1st, 1892.....	202
Meals for Home children.....	227,273
“ “ family and help.....	26,386
“ “ outside poor.	183
Total number of meals furnished.....	253,842
Number of children taught in school.....	345

The work accomplished in the schoolroom this year has been particularly gratifying. Many of the children when admitted to the Home enter school for the first time, and are frequently found ignorant, disobedient, lacking in home training, and with apparently no wish to learn, but the superintendent, Miss M. E. Whittelsey, and her associate teachers, have found out the secret of reaching the heart and securing the confidence, seldom failing to create interest and self-respect in the children, although it requires on their part unwavering patience, encouraging words, and repeated explanations.

During the year the old benches in the Infant Department were replaced by new and more modern ones. This was a crying need for the comfort of the children, and we would like to have made the change before, but did not feel able to incur the necessary expense. From the Board of Education we received several new maps, which help to brighten up the walls in the Senior and Intermediate departments, and are of inestimable value in teaching geography. The children have been much encouraged in their studies by Miss Lucy Du Bois, the efficient chairman of the School Committee, who offered prizes to all whose names were on the "Roll of Honor" at the end of each month. The library has been refitted, and we now have three hundred volumes of interesting and beneficial reading. The health of the children during the year has been good, for which we have occasion, after so warm a summer, to be truly grateful.

The matron, Miss D. G. Brown, has personally superintended the selecting and preparing of suitable food, which has gone far toward keeping sickness away. To say anything eulogistic of the faithfulness of our physicians, who hold themselves at the service of the poorest little sufferer, is truly to "gild refined gold." If the money value of their services was computed it would be one of our most important contributions.

PHYSICIANS' REPORT.

To the Board of Managers of the Industrial School Association :

The report of the medical staff must, of necessity, be brief, as there has been such remarkable absence of illness of a general character. Two deaths have occurred, both children in quarantine, one having developed membranous croup, the other diphtheria. We have had two cases of scarlet fever, the germs of which, so far as traceable, were brought from without, but it is worthy of comment that prompt isolation and vigilant restrictive measures were successful in preventing the spread of these dread types of contagious diseases. We had only one accident of severity, that of a fractured thigh, occasioned by a fall. The child has fully recovered, and fortunately is not crippled.

Your Medical Board desire to impress upon the management,

that in the good record which we have to present, notably the food, clothing, fresh air, exercise, sleep, are all essentials in the hygienic problem, which our report makes self-evident, are of a high order of excellence in our institution.

We would fail in courtesy and justice not to acknowledge in this report the careful, conscientious labor of the superintendent, matron and nurses, but our good year's record is the best comment of worthy service. Respectfully submitted,

DAVID MYERLE, M. D.

JAMES W. INGALLS, M. D.

ARTHUR E. SMYLLIE, M. D.

C. H. SCHAPPS, M. D., *Consulting Physician.*

The various committees have done good work in their respective spheres.

The Executive Committee have held their regular Friday afternoon meetings at the Home to consider its needs, receive applications, and transact business.

The Visiting Committee have attended to all cases needing investigation, and only in a few instances discovered deceit or fraud.

The Work Committee, surely a most important one, will speak for themselves.

Garments cut by Work Committee.....	1,128
" made by managers.....	1,373
" " friends :	
Miss E. Butterfield, (through Mrs. Howell).....	12

Mrs. A. E. Blake's Circle of King's Daughters.....	12
King's Daughters from Central M. E. Church.....	48
Garments cut, made and repaired in workroom	3,101

If there is any one who considers darning a "lost art" we would like them to visit the Home and see the pile of stockings neatly mended by the little girls each week. They are taught by and work under the supervision of one of the older girls. This year they have mended 5,421 garments, darned 6,938 stockings, made 1,428 button-holes, 12 dresses, 7 aprons, and hemmed 125 towels and napkins.

Donations of partially worn clothing will be very acceptable, and placed in the hands of our skillful seamstress will soon be fashioned into little garments. Much of the clothing worn by the children during the year has been made from samples, so that frequently the front and back of a pair of trousers, or a dress, may not be of exactly the same pattern, but when neatly made it would require close scrutiny to discover the difference. The sewing classes have met regularly each week, and the children have made most credible progress in sewing. Thanks are

due to those outside friends who are endowed with such a true missionary spirit as to give so much of their time to this branch of the work.

The Distributing Committee have given to the Home Children :

Garments.....	1,822
Hats.....	79
Pairs of shoes.....	729

Pairs of shoes.....	161
“ “ stockings.....	50
<i>BRANCH SCHOOL NO. 2.</i>	
Garments.....	32
Pairs of shoes.....	36
Outside poor.....	113

We never lose an opportunity of introducing to our friends the little brood in the nursery, so carefully guarded by their faithful nurse. While one child receives in the Home no more attention than another—excepting it is one extra poor or sick—still the helplessness of these children, all under five years of age, make a special appeal to our sympathy. At Christmas each baby was presented with a handsome little chair and a rubber doll by Mrs. Joseph F. Knapp. To complete the gift, six low tables were added to the nursery, around which the children sit and play with their toys and games. At Easter they were again remembered by the same friend. This kind thoughtfulness on the part of the giver has been a source of comfort and pleasure to them throughout the year. The officers and teachers in the Sabbath-school have been very faithful, and are fully consecrated to the work intrusted to their hands. It has been their aim to unfold the Gospel to the children in the plainest and simplest manner, leaving the result with the Master, who even marks the sparrow's fall, and is not willing that the least of these should perish. The superintendent reports that the average attendance has been 12 teachers and 171 scholars. Thirty-six Bibles were given the children.

Treasurer.

The children, by special invitation, visited several of the different churches in the vicinity and were received most kindly by the pastors and people. On several occasions they took part in the services, either by singing or reciting passages of scripture, and what was gratifying to us, they were commended for their good conduct.

Through the Open Air Fund we were enabled to give the children a number of summer outings, which proved a great benefit and pleasure to them.

At Thanksgiving bags were sent out as usual for the purpose of collecting material for the Thanksgiving dinner. We consider the smaller annual donations the rootlets which anchor the Industrial School in the hearts and homes of our friends, and would here express sincere thanks for the bountiful supply of provisions that reached us. So that no one may ever be deprived the pleasure of giving in this way, we say that if through mistake a bag is not left at your door, or we fail in calling for it, a postal sent to the Home stating the fact will receive immediate attention. Mr. and Mrs. J. W. Smith, though absent from the city, did not forget to provide a Christmas tree and gifts for the children. This continued kindness has undoubtedly furnished some of the brightest spots in their lives. On Christmas morning came the usual gifts of stockings filled with nuts and candies from the trustees and managers.

At the annual reception we were glad to welcome so many friends, and to hear the words of cheer and approval greeting us on all sides.

Branch No. 1 (Gillispie Memorial), located at 480 Humboldt Street, has made excellent progress, and we have every reason to believe that the year's work has been productive of good. The class of children attending this school come from very poor families, and this necessitates our giving to them a large number of garments, as the report of the Distributing Committee will show. The lack of proper clothing is one obstacle in the way of their attending the public school; besides, they need the warm dinner which is furnished in the winter, and we know for a fact that it is the only good meal many of them have through the day. The Thanksgiving dinner for this school was personally solicited by Miss Hattie Burrows and Miss Clara Moller. At the close of the school for the summer they were entertained by Mrs. S. J. Burrows and the King's Daughters from the Ainslie Street Presbyterian Church.

Number of Scholars present during the year	17,075
“ “ meals furnished.....	13,455
“ “ “ Day Nursery.....	650

The Day Nursery, also located at the Gillispie Memorial, was never more urgently needed than now. In many instances, the older children of the family are obliged to go out and earn something for themselves. The mother can often find work when the father will fail, but her hands cannot be tied, hence the nursery.

A generous gift of \$50 came to us for this work, from the "Charity" Circle of King's Daughters. We congratulate these young girls on the wise distribution of funds for which they had worked so zealously, "In His Name."

Branch School No. 2, located at 68 Scholes Street, is in a most flourishing condition. The attendance during the year has been regular and prompt. In addition to the primary instructions, lessons are given in sewing. The ladies who have the sewing class in charge have been very faithful, and pleasantly entertained the children at Thanksgiving and at the close of school for the summer vacation. The Christmas cheer came to them through the Girls' Half Hour Club. An organ from the South Third Street Presbyterian Church has been appreciated by the scholars, and greatly assisted them in singing.

Number present during the year.....12,912

" of meals furnished..... 400

There are a few friends that we would especially mention. Among them: Drs. Bush and Barrett, who for a number of years have rendered gratuitous dental service. The Dorcas Society of North Salem, N. Y., from whom we received two quilts and a number of garments. The Knickerbocker Ice Company, for a bountiful supply of ice during the year. To the press we are especially indebted for correcting erroneous statements and presenting us in a true light to the public.

There are many others, known and unknown, to whom we would express our thanks, and say that everything sent to the Home has been put to the best use possible for the benefit of the children.

It may not be amiss right here to mention that a new wing on the west side of our building is greatly needed. We are often reminded of this fact by having to refuse admittance for want of room to many deserving aid. All that is needed are funds to erect the building, as the association now owns the ground. Some may say that we already have a large, handsome Home, and ought to be satisfied. If there is any such one we would invite them to come and hear the stories of poverty and unhappiness that are brought before us each week, and we are confident that they would soon say: "I wouldn't blame those women if they wanted to take in the *whole block*." Some of the children come to us only temporarily. It frequently happens that a mother must go to the hospital for treatment and the father's wages

will not be sufficient to pay any one to come in and care for the children. In such cases we receive them until the mother is better and able to take them home again. Some come through the courts, and others are legally surrendered. During the summer, Mrs. B. Hunting Howell, the First Directress, whose summer home is at Quogue, L. I., has visited many of the children who have secured homes in that locality. Though not enjoying her usual good health, Mrs. Howell made over seventy calls, giving advice and encouragement, and making changes where it was thought necessary.

We were glad to welcome her back again this fall, renewed in health and strength, and hope that she may long be spared to the cause for which she has labored so faithfully for over twenty-two years.

It has been, friends, no light task to sum up in a few pages the work of a year, but we have given it as truthfully as we can, and may what has been accomplished in the past encourage us for the greater work of the future. Respectfully submitted,

MARY OSBORNE ROWLAND,

Recording Secretary.

MARY ELEANOR POST,
Chairman.

AN ACT
TO AMEND THE CHARTER OF THE INDUSTRIAL
SCHOOL ASSOCIATION OF BROOKLYN, E. D.

PASSED APRIL 27TH, 1870.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

SECTION 1. The Industrial School Association of Brooklyn, Eastern District, are hereby authorized and empowered to purchase and hold real estate sufficient for the actual occupation and necessary uses of the corporation, and to receive the same by gift or devise, in the same manner and subject to the same restrictions as provided in the general law for the incorporation of benevolent and charitable associations, under which said association is organized, and to hold and convey such real estate; and shall be deemed to be possessed of the rights and be subject to the liabilities of corporations, according to the provisions of title third, chapter eighteenth, part first, of the Revised Statutes, so far as the same may be applicable; provided, however, that the amount of real estate to be held by such association at any one time shall not exceed one hundred thousand dollars in value, and the amount of personal property to be held shall not exceed seventy-five thousand dollars in value.*

§ 2. The real and personal property of said association so held by it shall be exempt from taxation to the amount held by it as before mentioned in this act.

§ 3. There shall be a board of female managers of the said association, to conduct the business of the association in a manner prescribed by the constitution and by-laws of the aforesaid association, as the same now exists, or as the same shall be adopted or altered by the said association, but the same shall be in accordance with the laws of this State, and such managers shall be elected or appointed annually, or otherwise, as is or may be prescribed by such constitution and by-laws.

*By an act of the Legislature passed in 1889, this and other similar institutions are authorized to hold property not exceeding two million dollars in value or the annual income of which does not exceed one hundred thousand dollars.

§ 4. It shall be one of the objects of such association to provide a temporary home and relief for adult destitute, unprotected, and friendless females.

§ 5. The board of managers shall have power to appoint matrons and such other assistance as they may deem necessary in conducting the domestic and internal concerns of their house or houses of industry and home for the friendless; to make any by-laws and regulations for the government of their own proceedings and those of the persons so appointed, and of the inmates of their houses; to govern the children under their care and prescribe their course of instruction and management to the same extent and with the same rights as exists in the case of natural guardians.

§ 6. In all cases where a child shall have been surrendered by its natural or other legal guardian to the care and management of the said association, by any instrument or declaration in writing, it shall be lawful for the board of managers, at their discretion, to place such child, for adoption or at service, in some suitable employment, and with some proper person or persons, conformable to the laws of this State in regard to the binding out of indigent children; provided, that in all such cases the terms of the indenture shall be approved by the Mayor of the City of Brooklyn, or by the Surrogate of Kings County, which approval shall be signified on such indenture by the signature of such Mayor or Surrogate; but in every such case the requisite provision shall be inserted in the indenture, or contract of binding, to secure the child so bound such treatment, education, or instruction as shall be suitable and useful to its situation and circumstances in life.

§ 7. In case of the death of the mother or legal incapacity of a father, or of his imprisonment for crime, or of his abandoning and neglecting to provide for his family, the mother shall be deemed the legal guardian of her children for the purpose of making such surrender as aforesaid. And if in any such case the mother be also dead, or legally incapable of acting, or imprisoned for crime, or shall have abandoned or neglected to provide for her child or children, the Mayor of the City of Brooklyn or the Surrogate of the County of Kings, shall be, by virtue of his office, the legal guardian for the like purpose; and, so in all cases where it cannot by diligent inquiry be ascertained that there is within the State any parent or other person legally authorized to act in the premises, the said Mayor and Surrogate shall be *ex officio* such guardian for the same purpose; and in either case, whether such surrender shall be made by the mother, or by the Mayor or Surrogate, and whether before or after admission into said home, it shall be deemed a legal surrender for the purposes and within the true intent

and meaning of the sixth section of this act ; but no surrender by the mother, as provided by this section, shall be valid without the consent of the Mayor or Surrogate aforesaid.

§ 8. If any party to whom the said association shall have entrusted a child shall be guilty of any cruelty, misusage, refusal or neglect to furnish necessary provisions or clothing, or any other violation of the terms of the indenture or contract, toward any such child so indentured, such child may make complaint thereof to the board of managers of said association, or to any justice of the peace of the county in which said child is so indentured, or to the Mayor, Recorder or Alderman of any city in which such child is bound to service, or to any such officer who shall summon the parties before him and examine into, hear and determine the said complaint, and if upon such examination the said complaint shall appear well founded, such officer shall by certificate under his hand discharge said child from his or her obligation of service, and restore him or her to the charge and management of said association, in the same manner and with like powers as before the indenture of said child.

§ 9. When children are indentured, the guardian may be required after said children have attained the age of 12 years, to place annually in the treasury of said association the sum of ten dollars, which shall be the legal property of such children. If a girl, the aggregate, making sixty dollars, shall be paid to her when she has attained the age of 18 years ; and if a boy, the annual payment, making ninety dollars, shall be paid to him when 21 years of age ; these respective sums shall be duly credited to said children upon the books of the association and receipts of the respective payment placed in the hands of the guardian for safe keeping.

§ 10. The board of managers of the said association shall be the guardian of every child indentured by virtue and in pursuance of the provisions of this act. They shall take care that the terms of the contract be faithfully fulfilled, and that such ward be properly treated ; and it is hereby made their special duty to inquire into the treatment of every such child, and redress any grievance in manner prescribed by law ; and it shall be the duty of the guardian to whom any such child shall be indentured, and he shall, by the terms of the indenture, be required, as often as once in each year, to report to the said board of managers the conduct and behavior of the said apprentice, and anything of special interest pertaining to his or her welfare.

§ 11. The Legislature may at any time alter, amend or repeal this act.

§ 12. This act shall take effect immediately.
